Date	:-	April 29, 2021
Roll No.	:-	19BCE246
Course Code	:-	2CS405
Course Name	:-	Web Technologies
Practical No.	:-	9
Aim	:-	

Design a shopping website using CSS that provides information about various products to the visitor. A visitor can register to the shopping website if he wishes to purchase some item(s) now or in future. The registration form should collect necessary information of a visitor in order to deliver the product if order placed. Moreover, design a web page to place orders by the registered user. Validate all the fields of the registration form and order form.
